INTRODUCTION -----	5
CASE HISTORY OF A.V. WATKINS DAM -----	5
DESIRABLE CHARACTERISTICS OF SEEPAGE MONITORING SYSTEMS -----	8
THE DTSS (DISTRIBUTED TEMPERATURE AND STRAIN SENSOR) MONITORING SYSTEM -----	12
Introduction and Description-----	12
Measurement and Data Description-----	12
Installation Details-----	13
Case Histories of Previous Use-----	14
Limitations-----	16
OTHER SEEPAGE MONITORING TECHNOLOGIES -----	16
Technologies that Monitor Deformation -----	16
GPS Monitoring-----	17
Introduction and Description-----	17
Measurement and Data Description-----	17
Installation Details-----	17
Case Histories of Previous Use-----	18
Limitations-----	18
Pseudolites-----	19
Robotic Total Stations-----	19
Introduction and Description-----	19
Measurement and Data Description-----	19
Installation Details-----	19
Case Histories of Previous Use-----	20
SAR (Synthetic Aperture Radar)-----	20
Introduction and Description-----	20
Measurement and Data Description-----	21
Case Histories of Previous Use-----	21
Limitations-----	21
LIDAR-----	21
Introduction and Description-----	21
Measurement and Data Description-----	22
Case Histories of Previous Use-----	23
Limitations-----	23
Conclusion of Deformation Monitoring Technologies -----	24

Technologies that Monitor Seepage -----	24
Electrical Resistivity-----	24
Introduction and Description-----	24
Measurement and Data Description-----	25
Installation Details-----	25
Case Histories of Previous Use-----	25
Limitations-----	26
Change Detection-----	26
Introduction and Description-----	26
Measurement and Data Description-----	26
Case Histories of Previous Installations-----	27
Limitations-----	27
Thermal Imagery-----	27
Introduction and Description-----	27
Measurement and Data Description-----	27
Case History of Previous Use-----	27
Limitations-----	27
