

TABLE OF CONTENTS

LIST OF FIGURES	ii
LIST OF TABLES.....	iv
LIST OF SYMBOLS	v
CONVERSION FACTORS	xi
I. INTRODUCTION – OBJECTIVES.....	1
II. LINEAR AND NONLINEAR STRESS-STRAIN BEHAVIOR	2
Young's modulus, shear modulus, bulk modulus and constrained modulus.....	2
Initial modulus, secant modulus, tangent modulus, and unload-reload modulus	5
Variation of moduli with confining pressure.....	7
Modulus degradation with strain	7
Factors affecting rates of modulus degradation.....	8
Low-strain modulus from shear wave velocity measurements.....	8
Modulus values for finite element analyses	11
Rock modulus	12
Poisson's ratio	12
III. CORRELATIONS OF SOIL MODULUS WITH RESULTS OF IN SITU AND LABORATORY TESTS	14
REFERENCES.....	52
APPENDIX A: IN SITU TESTS.....	A-1
Standard penetration tests (SPT)	A-1
Cone penetration tests (CPT)	A-1
Dilatometer tests (DMT)	A-1
Pressuremeter tests (PMT)	A-1
Geophysical methods	A-1
APPENDIX B: PRESSUREMETER TEST INTERPRETATION.....	B-1
Description of test	B-1
Interpretation of test results.....	B-2
Example calculation	B-4
APPENDIX C: CORRELATIONS FOR ESTIMATING SHEAR WAVE VELOCITY FROM IN SITU TEST RESULTS.....	C-1
